

Colloquium

The Psychoanalyst in the Political World

**Date: November 22nd 2025 Venue:
EPF House, Brussels (in-person only)**

This meeting will provide a context to explore the relation of psychoanalysis to socio-political events referencing the human catastrophe in Israel-Palestine as its main focus. We will consider the nature of our relation to such events as psychoanalysts and as citizens. Many colleagues have found great difficulty in discussing this situation within their societies – this is something we would like to explore. Such discussion raises important questions as regards psychoanalytic 'neutrality' and this will be an important theme we hope to address.
